

Tools

**FOR SELF
RELIANCE**

practical help for
practical people

Thank you for your tools!

Thank you for donating your tools to Tools for Self Reliance. Hand tools and sewing machines are vital for skilled people in Africa who don't have access to the tools they need to earn a living. Your kind gesture is the start of an incredible journey, during which your tools will be carefully sorted and restored by our dedicated bands of volunteers.

Tools are only part of the story because we help in other ways too. As well as providing people with the tools of their trade, we also give them a helping hand by providing vocational and life skills and the basic skills they need to run their business.

Thank you for your tools!

Thank you for donating your tools to Tools for Self Reliance. Hand tools and sewing machines are vital for skilled people in Africa who don't have access to the tools they need to earn a living. Your kind gesture is the start of an incredible journey, during which your tools will be carefully sorted and restored by our dedicated bands of volunteers.

Tools are only part of the story because we help in other ways too. As well as providing people with the tools of their trade, we also give them a helping hand by providing vocational and life skills and the basic skills they need to run their business.

Other ways you can help

Tools for Self Reliance has been supporting African blacksmiths, carpenters, tailors, mechanics, builders, shoe makers and more, for over 30 years. We do so by working closely with trusted, local partner organisations.

As a registered charity we are entirely dependent on donations to pay for all this work. For every £10 we receive we put tools and training worth £30 into the hands of practical people in Africa. So we think we offer exceptional value for money. By re-using unwanted tools we do our bit for the environment too.

If you would like to help, for example by becoming a volunteer or by supporting our fundraising, contact your local group.

Registered charity No. 280437. Company limited by guarantee and registered in England and Wales No. 1487630
